	APPROVAL OF STATE ENGINEER
	This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the
u t w c u	mount of water actually placed to beneficial use. It is also inderstood that this right must allow for a reasonable lowering of the static water level at permittee's well due to other ground ater development in the area. A substantial weir or other type of measuring device must be installed and measurements of water see kept. The well shall be equipped with a 2-inch opening for easuring depth to water. If well is flowing, a valve must be
r	nstalled and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and limes.
a a	ight to regulate the use of the water herein granted at any and l1 times. amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and be exceed. 2.5 cubic fect per second but not to exceed a yearly duty of 5.0 acre-feet per acre of land irrigated from any and/or all sources.
The anot to e	ight to regulate the use of the water herein granted at any and l1 times. amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and exceed. 2.5 cubic fect per second , but not to exceed a yearly duty of 5.0 acre-feet per acre of land irrigated
